

BRIEF SUMMARY

I am Ayush Maurya, a passionate Web Developer and UI/UX Designer with a strong focus on creating user-friendly and visually appealing digital experiences. With expertise in both front-end and back-end development, I bring designs to life through clean, efficient code. I prioritize user experience in every project, ensuring seamless interactions and intuitive interfaces. I continuously explore the latest design trends and development technologies to deliver modern solutions. My goal is to combine creativity and technical skills to build functional and aesthetically pleasing websites and applications.

PROJECTS

Roomrentel

04 Apr, 2025 - 11 Apr, 2025

Team Size: 2

Key Skills: React.js Javascript Node.js Express.js MongoDB HTML5 CSS

Project Link: <https://roomkartz10.netlify.app>

The main goal of this project is to create a room/property rental platform where: Owners can register and manage their rental properties. Users can browse, search, and book available properties. Admins can monitor and manage all platform activities, including owners, users, and properties. (made for client)

Medical

10 Feb, 2025 - 20 Feb, 2025

Key Skills: React.js MongoDB Node.js Express.js Javascript HTML CSS Figma

Project Link: <https://medical-test-booking-1.onrender.com/>

I built a website where users can book appointments for various tests, view their reports in their accounts, and get AI-powered insights on their reports. The admin page allows managing and posting reports efficiently. (made for client)

I have worked on a wide range of projects, and showcasing all of them here is not feasible. This is my portfolio website where you can explore all my projects in one place:

ASSESSMENTS / CERTIFICATIONS

Introduction to Cybersecurity

Key Skills: Computer Networking

I have successfully completed the Introduction to Cybersecurity course provided by Cisco Academy. This course has equipped me with foundational knowledge about the key concepts in cybersecurity, including network security, cyber threats, risk management, and the importance of securing digital assets. I now have a deeper understanding of how to protect systems, networks, and data from cyber threats, and I am excited to apply this knowledge in real-world scenarios.

Introduction to MERN Stack

Key Skills: React.js Node.js Express.js MongoDB

I recently completed the Simplilearn MERN Stack Introduction course, gaining foundational knowledge in building full-stack web applications using MongoDB, Express, React, and Node.js. This course enhanced my skills in creating dynamic and responsive web solutions.
